What our students say

- “I loved it! I learnt so much, the practical work is amazing, and it really set me up for University and the skills I’d need..”
- “It’s a really fun course. You get so much independence, but the help and guidance is always there whenever you need it.”
- I loved the teachers and the fact that we could put on our own show to raise money to create a great set design for our devised piece.
- “I was worried about the written exam in Year 13, but I received so much support and it really helps that half of the exam is on a play you have seen at the theatre.”
